

Life under the water

Milena Famler Sprint Doku 04

- Update on sprint doku and work on acc set up plus homepage
- work on acc set up and transferring of imgs for randomised pfp
- work on accsetup pfp changing and using function in another js file
- work on galery and accset
- experementation of the cards from homepage and how to fix them
- fixed cards, only thing to figure out is why the sec card isnt working properly
- working on adding swup a js library, but having issues on the way
- work on js library
- trying out a new js library
- failed to do another js library, whyyy????

Goals:

- Finishing of the homepage completely
- Fix JS for content generation for gallery and homepage
- finish gallery html, css, js and json, figure out how to the filters etc
- do some very complicated work that has to do with the account setup
- find out why I can't seem to be able to make any js library work???
